Subject : Dissemination of ICMR Policy on RIPE [Research Integrity and Publication Ethics] – reg.

The ICMR Policy on RIPE [F/A] aims to ensure highest professional and ethical standards for biomedical and health research at all stages right from inception , conduct, review, reporting and publication. It has received, as expected, extremely encouraging response from the researchers in a very short time. In view of its importance in health research , the ICMR Policy on RIPE needs to be disseminated widely among the scientific community.

It is therefore proposed to reproduce in our two periodicals viz., the **Indian Journal of Medical Research, Journal of Vector Borne Diseases**, and also to be uploaded on the **websites of our institutes.**
